

■ 3-wire RF Receiver

• Control mode (related to matching emitter) :
Can be integrated IR/PIR, remote control switch, etc

- Applicable scenarios:
- 1) Applicable to multiple / set control scenarios,
 - 2) Achieve a emitter control of multiple street lights

Dimension(mm):

Model	Input Voltage	Power	Rated current	Distance	Function
HJK200-24VFR	12/24V DC	Single output@120W Three outputs@Max.200W	Single output @Max.5A Three outputs@Max.8.3A	≤15m	Independent switch for three groups of lights

* A receiver can match up to 4 different transmitters

2.4G TRANSMITTER OPTIONAL:

RF-PIR Detector

Magnit-RF Detector

RF Remote
